STEAMERS COLLIDE.

One Goes Down with Seven Men and Forty Horses.

By Telegram to THE SENTINEL.

INDIANAPOLIS, Ind., Nov. 6.—A special from Lawrenceburg states that between 2 and 3 o'clock this morning the steamers J. W. Gaff and Mountain Girl collided at Splutrock, two miles from Aurora, sinking the latter and carrying down to a watery grave seven men and thirty or forty horses. The Mountain Girl was leased by a portion of John Robinson's show, traveling as a cheap priced circus and variety concern. It was exhibited at Lawrenceburg last night and was on its way to Rising Sun when the accident occurred. The men drowned were deck hands, except a young man, named Harrell, of Lawrenceburg, who was connected with the show.

HOW IT HAPPENED.

CINCINNATI, Nov. 6.—The James W. Gaff arrived this morning with the circus people from the sunken steamer Mountain Girl. Two men are missing and it is not certain they are drowned. Captain Thompson, of Mountain Girl, tells this story: "I started out to pilot the boat myself, but I was sick, having a kidney affection, and could not stand at the wheel. The man, whose name is Smith, took my place and I sat in the pilot house with him. We had no trouble as the water was ample and Smith handled the boat all right. I heard the Gaff whistle to the left, which would put us on the Kentucky side of her in passing, and I noticed that Smith answered properly. I got up and looked and found the boats were about to pass all right. I sat down again, when I was astounded to hear three shrill blasts from the Gaff, which meant imminent danger. I sprang to the wheel and found that the Mountain Girl was apparently attempting to cross over to the Indiana or right side of the channel and the Gaff was coming at full head against her. I did my best to stop the engines and did get her, after two or three revolutions of the wheel for backing, when the blow came. The Gaff bow struck us in front of the boilers about thirty feet from our bow and the crash broke in our hull so that we immediately took water. I turned the boat's head toward the Indiana shore but we sank in twelve feet of water. This brought the water about a foot above the cabin floor. The Gaff came alongside and so far as I know everybody was safely taken off and put on the Gaff. I do not believe anybody was drowned, as there was no occasion for drowning unless they jumped overboard from fright. I think the two men missing are still with the Mountain Girl."

The circus men lost ten valuable horses and a number of snakes. Their circus property was nearly all left on the boat and will be injured by the water.

The Mountain Girl was a small up-river steamer, built for the Big Sandy trade, and owned by the Big Sandy Packet company, and was valued at from \$5,000 to \$8,000. It is thought she can easily be raised. The Gaff is not injured.

WASHINGTON, November 5.—The governor of Washington Territory yesterday telegraphed Secretary Lamar that the citizens of Tacoma had expelled about two hundred Chinese from the city limits. The governor then telegraphed the local authorities at Tacoma, asking if they could preserve order. He was informed that while order had not been perfectly preserved, no one had been seriously injured. Another telegram from the mayor of Seattle stated that in view of the outbreak at Tacoma, trouble was apprehended at Seattle. The Chinese in the territory have made an urgent appeal to the governor for protection, and a gubernatorial proclamation has been issued calling upon all citizens to assist in the preservation of order. The proclamation was reported to-day to Secretary Lamar, who by order of the president sent a telegram to the governor of Washington territory, approving the issuance of the proclamation and directing him to use all means in his power, to prevent further trouble.

WASHINGTON, November 5.—Governor A. P. Swineford, of Alaska, has made his first annual report to Secretary Lamar, on the condition of affairs in that district. He arrived at Sitka September 15 and was cordially received, save by a very few persons, who, in the language of the governor,

preferred a continuance of the old order of affairs, under which, presumably, they had persuaded themselves to believe they might individually profit much more largely at the expense of the general government than under the new. None of the appropriations made for the support of the civil government or for specific purposes, appears to have reached the hands of the ex-officio treasurer; consequently he has no record of the disbursements, all of which, with a few exceptions, the governor says, were made by the collector of customs. An increased appropriation for schools is asked. The children are said to manifest more than the average aptitude in study and the Aleuts are especially anxious for the establishment of English schools. A careful estimate of the population of southeastern Alaska, placed the number of whites at 1,900 and natives at 7,000. The native Alaskans are said to be educated to some extent in the elementary branches, to be members of the Greek, Presbyterian and Catholic churches. They are not Indians and differ in appearance, habit, language and in other respects, from the Indians of the United States. The governor dwells at length upon the great natural resources of Alaska, and severely arraigns those government agents who have represented the country as inclement to a degree preventing the cultivation of crops, or the keeping of domestic animals. Nowhere, he says, in his home travels, from Lake Superior to the Gulf of Mexico, has he seen a more luxuriant vegetation than in southern Alaska. The hardy vegetable all grow to maturity and to enormous size and the cattle are sleek and in the best possible condition. The gold mines in Douglas Island, opposite Juneau, are in full operation. The deposit is represented to be truly phenomenal and the governor says the mine promises to figure more largely in the mining history of the world, than any other on record. The law prohibiting the liquor traffic is said to have been disregarded.

REPORT OF THE PAYMASTER-GENERAL.

Paymaster General Rochester, in his annual report to the secretary of war, shows that the disbursements made by his bureau, during the last fiscal year, amounted to \$13,483,727 including \$197,000 to the signal service, and \$213,000 to the military academy, and \$12,349,443 on army pay rolls. Ninety non-commissioned officers and privates have been placed on the retired list. The paymaster general reports that the operations of his bureau, make it possible to drop six clerks from the present force.

REPORT OF THE FIRST COMPTROLLER.

The annual report of first comptroller Durham, shows that during the fiscal year ended June 30, 1885, accounts aggregating \$3,357,521.45 receipts from the auditing officers were received, recorded and certified to register.

OUR REVENUE MARINE SERVICE.

The report of the chief of the revenue marine service, shows that in enforcing the provisions of the law and the protection of the revenue, 24,481 merchant vessels were boarded and examined. Of this number, 1,425 were found violating the law and were either seized or reported to the proper authorities. These vessels incurred liability to fines, penalties or forfeiture, amounting to \$60,415, about two-thirds the cost of maintaining the service. The number of vessels in distress and assisted was 274. They had on board 2,052 persons and the value of the vessels and cargoes was \$5,568,043. Sixty persons were picked out of the water and saved from drowning.

THE PRESIDENT ON CIVIL SERVICE REFORM.

President Cleveland, in an interview with a member of the Post editorial staff, to-day, after expressing himself as well satisfied with the qualifications of the two new members of the civil service commission said: "I cannot rid myself of the idea that this civil service reform is something intended to do general good and not a mere sentiment invented for the purpose of affording an opportunity to ventilate high-sounding notions and fine phrases. My plan of giving it the greatest possible influence, involves the removal of stumbling blocks from the way of good honest men, who are inclined to its support, and to demonstrate in every public manner, its value as adapted to the everyday affairs of the government. Thus two Democrats were selected and I certainly intended to select them for the two prominent positions in the commission and this is largely in deference to the sentiments and opinions held by good men in the Democratic party, and it has occurred to me that it was a plain dictate of common sense that one of the old Commissioners should, if possible, remain for a time to aid the new ones. The preparation of the report of the commissioners a most important matter affording an occasion to commend the reform to the people, by exhibiting to them all that it has accomplished and the report ought to be useful too in removing misapprehensions and objections. Deeming the experience of one who has been in the commission during the time to which the report will relate, of the utmost value to its preparation and fully convinced that the knowledge gained by a connection with the administration of the law would be a great help to the new commission, I obtained the consent of Mr. Eaton to remain and I have to-day appointed in the place of Mr. Thomas, the former commissioner a Democrat."

member. When Mr. Eaton finally retires, I shall appoint a Republican whose selection will, I hope, detract nothing from the strength and efficacy of the new commissioner.

NOTES.

The president this afternoon appointed William Faxon, Michigan, to be register of the land office at Detroit. The president to-day appointed the following named presidential postmasters: W. S. Hammakin, Findlay, Ohio, vice E. G. Dewolf, suspended; G. M. Shelby, Kansas City, Missouri, vice I. S. Case, commission expired.

EDGERTON'S APPOINTMENT

Telegrams Congratulating the New Commissioner.

Special to the Indianapolis Journal.

WASHINGTON, Nov. 6.—Hon. A. P. Edgerton, of Fort Wayne, who was appointed civil service commissioner, stated to the Journal correspondent that he had informed the president that he wanted two weeks in which to put his business and domestic affairs at home in condition to leave them for a home in Washington, and had been given all the time for this purpose he desired. The president stated to Mr. Edgerton that he need not be in a hurry, as there was no demand for an immediate reorganization of the civil service commission.

Mr. Edgerton visited the quarters of the commission, in the agricultural department building, and was introduced to the clerks. All day he has been in receipt of gratulatory telegrams from friends throughout the country, representing all political parties. The president has also been congratulated numerous upon his selection. Many of the telegrams received by Mr. Edgerton were from Ohioans and Indians, in fact, a large majority of them are from Ohio and Indiana. Charles A. Munson, of Fort Wayne, telegraphed that the appointment "added strength to the administration and pleased everybody."

J. G. Shanklin, editor of the Evansville Courier, telegraphed that the country and the cause of civil service reform were to be congratulated upon the appointment of Mr. Edgerton. He predicted that under Mr. Edgerton the pledges of the president and his party in behalf of honest reform would be faithfully and conscientiously performed.

The president appointed Robert B. Smith, Montana, to be United States district attorney for Montana.

ANGOLA, November 5.—The preliminary trial of David Jacobs, of Roanoke, for the murder of Milo Bixler, was held to-day. Justice Corbin ruled that there were reasons for believing the act to have been more than manslaughter, and not in self-defence, and committed Jacobs to jail, refusing bail. John Barney and John Patten were regarded as material witnesses for the state, and are again in custody to be held until each shall give \$500 bond for their appearance at the January term of court. These men were discharged from custody last Friday, a preliminary examination showing nothing against them, they having left the hickory nut tree when Bixler ordered them away. They expect to get bail to-morrow.

BEECHER.

The nineteenth century is said to be the age of skepticism, and so perhaps it is as regards religion, but its practical spirit inclines it to look favorably on everything that promises immediate benefit and it is always ready to give everything that seems useful a fair trial. The West especially is ever been open and cordial to all new ideas, and this may partly explain why theosophy, the sovereign remedy for neurasthenia and neuralgia, has secured such a strong footing in Terre Haute. The well-known citizen who has the most explicit faith in it is Mr. R. Forster, the furniture dealer at No. 320 Main street. Mr. Forster, when recently asked at the University as to the benefit he had derived from Atrophos, answered as follows:

If you cannot get **ATHLOPHOROS** of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. The new mel has now been in use a sufficient time to demonstrate several facts. The first of these is, that there is little further use for coal here. The amount of the latter displaced daily by the consumption of gas is about 10,000 tons, or 250,000 thousand bushels, equal to the amount mined by 2,500 miners averaging 100 bushels per day. A number of mines heretofore worked to supply the Pittsburg market have been temporarily abandoned. The retail price of coal in this market has fallen about 35 or 40 per cent, and the dealers are glad to make even greater concessions to secure customers. The first lot

NOT OFTEN

Is Such a Rare Opportunity as
This Presented—Three Grand
Entertainments at the
Temple for \$1.00.

The R. R. Y. M. C. A. is already recog-
nized in this community as one of the
most deserving of our benefactions and
an instrumentality that is accomplishing
great good in our midst. But it must be
remembered that the success of such an
organization depends largely upon the
material aid it receives from the general
public. The maintaining of a reading
room, library, bath-rooms and other lux-
uries and conveniences that belong to an
institution of this character, is attended
with considerable expense, and while
some of our benevolent people have con-
tributed handsomely, the association
still finds it necessary to raise some
money to meet current expenses. To
accomplish this end, a series of three en-
tertainments have been agreed upon,
and the services of quite a number of
our most gifted people have been secured
for the same.

THE FIRST ENTERTAINMENT
will be a grand vocal and instrumental
concert, by the Haydn quartet, assist-
ed by Prof. Otto Schmidt, Miss Clara
Kenower and Messrs. Charles McCulloch
and John Mohr. That this concert will be
of a very high order of merit, the
names are alone sufficient guarantee. The
Haydn quartet is an organization of
which our people are justly proud, and
their fine numbers are always welcomed
on the program of any entertainment.
The fame and popularity of this quar-
tet is no longer confined to Fort Wayne
and vicinity, but their services are
sought far and wide. An engagement is
offered them at the Southern Chautau-
qua of Florida, next winter, and another
at Indianapolis during holiday week.
Their singing is pronounced equal to
that of the best professional organiza-
tions. Professor Schmidt is an artist
whose talents are too well appreciated in
this community to need laudation, and
Miss Kenower and Messrs. McCulloch
and Mohr will add very greatly to the
pleasure of the evening.

THE SECOND ENTERTAINMENT
will consist of a lecture by Mr. T. P.
Keator, formerly editor of the Gazette,
on "Strange and Curious Things I Have
Seen." This lecture is spoken of by
those who have heard it, as interesting
and quite eloquent.

THE THIRD ENTERTAINMENT
will introduce a number of our most
popular home artists. Among the at-
tractions of this number of the series, will
be Keineke's superb orchestra, the new
Mozart Quartet, Miss Emma Falk,
Miss Lucia M. Vail, Mr. H. B. Saynor,
Mr. Adolphe Shulte, Mr. A. T. Lukens,
Mr. H. B. Woolsey, Mr. F. E. Riblet,
Mr. W. F. Heath and others.
These entertainments are to be given
at the Masonic Temple during Novem-
ber and December, and tickets for the
season will be sold at the very low price
of \$1.00 each; or three tickets for the
same number of the series at the same
price. It is proposed in these entertain-
ments to give more than value received
for the money invested, and those who
patronize the course will not only have
the pleasure of attending a most deligh-
tful series; but will also have the con-
sciousness of having helped a worthy
cause.—Daily News.

D. C. Fisher was at Huntington and
Wabash yesterday working up Beecher's
lecture. He has a letter from Portland
saying that enough people will come
from that town to fill a passenger coach.
"A continual dropping on a very rainy
day and a contentious woman are alike."
No wonder, poor souls, they are such
slaves to headache. One twenty-five
cents spent for a bottle of Salvation Oil
will restore harmony in the household.

The Dyspeptic's Refuge.
"I am thirty-five years old," writes
Mr. Charles H. Watts, of West Somer,
Putnam county, N. Y., "and had suf-
fered from dyspepsia for fifteen years.
The current treatment did me no good.
Listlessly and without hope I gave Par-
ker's Tonic a trial. I can give the re-
sult in three words: it cured me." It
will cure you.

Procrastination is the thief of time, is
a proverb which can be illustrated in
many ways. A slight aching in the
limbs of joints is felt, and delay in treat-
ment may bring about a severe attack of
rheumatism. In all such cases use St.
Jacobs Oil. It banishes every pain.

In Paris the dress-making trade repre-
sents the movement of \$50,000,000 a
year and gives employment to 30,000
women.

Woman and Her Mission.

The poet, in apostrophizing woman,
says: "When pain and sickness rends
the brow, a ministering angel thou." No
one will deny that woman's soft touch
can soothe pain, especially when she
anoints the sufferer with St. Jacobs Oil.
Headache, toothache, earache, rheuma-
tism and neuralgia—all vanish before
this conqueror of pain. There is virtue
in its touch, it heals burns and bruises,
and the people of four continents are
ready to testify to the magical way in
which it acts in the most stubborn cases.

The bank of Scotland has recently de-
clared a dividend of 14 per cent. per
annum.

ter is the best porous plaster ever made."
Only 25 cents.

When Tricel Always Prepared.
When they once become acquainted
with it, ladies invariably prefer Parker's
Hair Balsam to any similar preparation.
It makes the hair soft and glossy, ar-
rests its falling out, promotes a new
growth, restores the original color and
has no equal as a dressing. Not a dye,
not oily, highly perfumed. Only 50c, at
druggists.

board of directors, to serve for the en-
suing year, will be held at the hospital
parlors on Tuesday evening next, No-

deliciously flavored beverage which may save
us many heavy doctors' bills. It is by the judi-
cious use of such articles of diet that a con-
stitution may be gradually built up until
strong enough to resist every tendency to dis-
ease. Hundreds of subtle maladies are float-
ing around us ready to attack wherever there
is a weak point. We may escape many a fatal
shaft by keeping ourselves well fortified with
pure blood and a properly nourished frame."

Some time ago a man named Perrin

on the steamer Chief Justice Waite and
was something of an artist. His first
meal was toothsome, but Mr. Perrin in-
sisted on dining at the first table with
the star boarders. This privilege was
denied him and hoisted a cleaver and
proceeded the clean out the house. The
cook was dismissed, and fired into the
street.

pay the Temple association \$4,000 if they
are released from liability for their fail-

ENTERTAINMENTS.

The Minstrels.

The McNish, Johnson & Slavin Min-
strel company appear at the Temple to-
morrow night. The Pittsburgh Post
says: "McNish, Johnson & Slavin's
minstrels proved a strong attraction at
the opera house last evening. Although
it was their initial performance the house
was filled. The organization is certainly
one of the finest of its kind that has
ever appeared here and deserve a good
run. Carroll Johnson, Bob Slavin,
Frank E. McNish and William Henry
Rice are born comedians, and kept the
audience in the best of humor. 'The
nobles Romans of them all,' Charles
W. Mitchell and William Muldoon, were
tendered an enthusiastic reception, and
fairly brought down the building in their
classic representations of ancient and
modern statuary."

A Subject Just in Season.

One subject that occupies attention
more than another, just now, is foot
wear. Physicians may give us remedies
for colds, ague and fevers, but the per-
son whose feet are properly clad requires
no medical assistance. Foot wear is de-
cidedly the most important part of the
everyday wearing apparel and too often
do people lavish their money for boots
and shoes that are totally unfit for
service in this region. C. Scheifer & Son
have been in business here for upwards of
a quarter of a century and will continue to
solicit public patronage for as long more.
Mr. Schiefer is a practical man and he
tells us he has the best and most varied
stock of boots and shoes ever shelved in
Fort Wayne. They are especially for
fall and winter service and were selected
in the eastern markets by himself. He
also makes a specialty of warm, lined
boots and shoes, and last, but not least,
he offers them at greatly reduced prices.
Mr. Schiefer is reliable, when he says
anything believe it, and THE SENTINEL
is empowered to invite the public to give
him a call at No. 8 East Columbia street.
The salesroom is pleasant and the clerks
agreeable.

More About Quarantine.

VINCENNES, Ind., Nov. 6.—Hon.
Robert Mitchell, president of the Indiana
Short Horn Breeders association, has
sent a petition to the governor of Indi-
ana in reference to the quarantining of
the state against the importation of
Kentucky cattle, calling attention to the
fact that pleuro-pneumonia exists in
some counties of Kentucky and in some
other localities and that several lots of
Kentucky cattle have been disposed of
at public sales lately in Indiana.

STATE POLITICS.

Max Dembafsky Tells of the As- pirants for the High Hoos- ier Places.

Max Dembafsky, of Goshen, was in
the city yesterday and dropped into THE
SENTINEL editorial parlors. Max is a
traveling encyclopedia on state politics
and has a volume or two of incidents that
interest. "Who are the coming candi-
dates, Max?" queried THE SENTINEL
man. "Well," said Max, settling down
as if in his element, "for secretary
of state D. D. Moody, of DeKalb,
Scott Ray, of Shelbyville, and M. D.
King, of Indianapolis, are announced.
G. Reiter, of Vincennes, S. B. Voyles,
of Salem, and Charley Munson, of Fort
Wayne, are mentioned for auditor of
state. But two men, Thomas J. Byrnes
and John P. Frenzel, aspire for the
treasurer's office, while Jason Brown, of
Jackson, and H. D. McMullen, of Aur-
ora, will contest for the attorney general-
ship. There will be a fight for clerk
of the supreme court. Richard Conner,
of Spencer, Chas. Spaeth, of Michigan
City, and M. V. B. Spencer, of Fort
Wayne are now in field and the crop of
candidates is not half ripe. John W.
Holcomb will again run for superintend-
ent of public instruction and Professor
Jacobs, of the third district, and D. D.
Luke, of Ligonier, are out against him.
I might name other probable candi-
dates, but the prominent ones will do."
Mr. Dembafsky came here to see
prominent politicians and is evidently
out for feelers. He is a character in his
way and it varies the monotony of life to
meet him.

RULES FOR THE DEAD.

The State Health Officer Issues New and Important Papers.

The state board of health was in
monthly session yesterday. Dr. C. N.
McIntosh, who was appointed to succeed
Dr. Elder as secretary of the board for
his unexpired term, was re-elected for
four years. The following rules were
adopted regarding the shipment of dead
bodies in the state:

The transportation of bodies of persons
who have died from small pox, Asiatic
cholera, typhus or yellow fever is strictly
forbidden.

From November 15 to March 1, all
other dead bodies may be transported
without restriction, except those of per-
sons who died of diphtheria, scarlet
fever, typhoid fever, erysipelas or mea-
sels, and these must be wrapped in a
sheet thoroughly saturated with a solu-
tion of chloride of zinc (one-half pound
to a gallon of water) and incased in an
antiseptic interment sack, hermetically
sealed and placed in a coffin, which must
be enclosed in a tight wooden box and
surrounded by sawdust, saturated with
a solution of chloride of zinc, same as
above.

From March 1 to November 15 bodies
of all persons not having died from dis-
eases specified above, must, in addition
to being placed in a coffin, be inclosed
in a hermetically sealed sack.

No person or article which has been
exposed to the contagion can accompany
the body.

Every dead body must be accompanied
by a physician's certificate of death and
a certificate from the shipping under-
taker, that the body has been prepared
for transportation in accordance with the
rules of the Indiana state board of health.

tion was incorporated yesterday at Indi-

establish a summer resort near Warsaw.
The capital stock is \$20,000.

opened a store in this city, in the old

pack in each can of Coffee and Tea a
souvenir or present, running in amount
from 10c to \$50, consisting of Nickel,
Silver and solid Gold Watches, genuine
Diamonds in solid Gold Settings and

this expensive method so as to thor-
oughly advertise their goods in Fort
Wayne and vicinity in the shortest time
possible; but after thirty days this choice
Tea and Coffee will be sold wholly on
their merits by their agent in Fort
Wayne at the same price, same quantity
and same quality, but without the souve-
nirs, the Tea and Coffee being worth at
a fair retail value more than the price
asked without any regard to the souve-
nirs. This company is an old and well
